SUMMARY

Final-year **Computer Science Engineer** (CGPA: 9.25) graduating June 2026, with internship experience at **Accenture** and **SuprMentr**. Hands-on skills in **Java, Python, Node.js, React, REST APIs, and SQL/NoSQL databases**. 3x national scholarship winner. GCP **Ultimate Legend Tier** (Top 5%, 300+ labs). Open to SDE and SDE Intern roles.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, HTML, CSS

Backend & Frameworks: REST APIs, Flask, Node.js, Express.js, React.js

Databases: MySQL, SQL, MongoDB, Firebase

Cloud & DevOps: Google Cloud Platform (GCP), Git, GitHub, Version Control, GitLab CI/CD, Agile, SDLC

AI / ML & NLP: TensorFlow, spaCy, scikit-learn, Pandas, NumPy, SciPy, NLP, Generative AI

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Cybersecurity

EXPERIENCE

Full Stack Web Development Intern | SuprMentr · Remote

Feb 2026 – Present

- Developed full-stack features using **React.js, Node.js, and Express.js** — reusable component structure reduced repeated code and cut feature delivery time across the platform.
- Designed and connected **RESTful APIs to MongoDB and MySQL**, enabling real-time data retrieval and persistent storage for mentor and mentee-facing modules.
- Implemented **CRUD operations with structured database schema design**, supporting multi-user interactions and keeping data consistent across backend services.
- Managed **version control using Git branching strategies and pull request reviews**, reducing merge conflicts and improving team release velocity.

Associate Software Engineer Intern | Accenture · Bengaluru

May 2025 – Jul 2025

- Automated **Excel data processing workflows using Python scripts**, cutting manual effort by ~40% and freeing the team for higher-priority development tasks.
- Wrote **20+ PyTest unit tests** covering positive and negative scenarios for enterprise backend modules — improved test coverage and caught edge-case bugs before production.
- Fixed and stabilised **Java and Python backend modules** across multiple sprint iterations in a large Agile team, maintaining code quality throughout delivery cycles.
- Followed **GitLab CI/CD pipelines, version control, and Agile workflows** — delivered code reviews and releases consistently on schedule.
- Earned certifications in **Generative AI, Cybersecurity, Prompt Engineering, and RPA** — applied secure coding standards directly during development tasks.

PROJECTS

EcoScore - Carbon Credit Scoring System | Top 50 Nationally · Mercer-Mettl FinWiz 1.0

Nov 2025

Tech: Python, Flask, Pandas, Matplotlib, JSON

- Built a **Flask REST API** that scores transactions on carbon impact (1–100) by mapping spending categories to an emission index, giving users a real-time sustainability score.
- Presented at FinWiz 1.0 national fintech hackathon — placed **Top 50 out of hundreds of teams across India** for the EcoScore sustainability solution.

AI-Powered Resume Analysis System

Apr 2025 – Jan 2026

Tech: Python, Flask, spaCy, scikit-learn

- Built an **NLP pipeline using spaCy** to extract skills, education, and experience from resumes and match them against job descriptions — reduced manual screening time by 5-10 minutes per resume.
- Trained a **scikit-learn scoring model** achieving **90% keyword extraction accuracy** across 50+ test resumes, served via a Flask web app for real-time analysis.

Vibration-Based Fault Detection in Drones (ANN)

Dec 2024

Tech: Python, TensorFlow, NumPy, SciPy

- Processed drone vibration sensor data using **FFT for feature extraction**; trained an ANN model to classify motor states as normal or faulty.
- Achieved **85% test accuracy** on unseen data, validating the model's ability to detect motor faults before failure.

EDUCATION

B.E. in Computer Science & Engineering · Rajarajeswari College of Engineering, Bengaluru *Dec 2022 – Jun 2026*
CGPA: 9.25/10

Class XII (PCMB): **95.2%** · AR-Rehan PU College, Sira, Tumakuru (2022)

ACHIEVEMENTS & CERTIFICATIONS

- **Infosys Foundation STEM Scholarship** — top 5% of engineering students nationally; selected for academic excellence and demonstrated interest in technology
- **Reliance Undergraduate Scholarship** — national merit-cum-means award for academic performance
- **ZS Scholars Program** — selected by ZS Associates for academic distinction
- **GCP Skills Boost — Ultimate Legend Tier at GCP Arcade Program — Cohort 2** (Aug 2025 - Jan 2026) with **300+ Labs** and **100+ Badges** also completed hands-on cloud labs across GCP products [view](#)
- **NLP — Elite GOLD** · VTU (Nov 2025) | **Machine Learning for Engineering — Elite GOLD** · VTU (Jan 2026)
- **Programming in Java** — NPTEL / AICTE SWAYAM — covered core Java, OOP, data structures, and exception handling [view](#)
- **Cloud Computing** — IBM SkillsBuild — covered cloud architecture, deployment models, and IBM Cloud services [view](#)
- **Google Cloud Digital Leader** — Google Cloud / Skillsoft — cloud strategy, GCP products, and digital transformation concepts [view](#)
- **Algorithmic Toolbox** — Coursera / UC San Diego — algorithm design, complexity analysis, divide & conquer, dynamic programming [view](#)
- **Hacking Phases & Concepts** — Skillsoft via Accenture; covered ethical hacking lifecycle, attack vectors, and security fundamentals
- **Infosys 'IAM Future-Ready' — Women in STEM Workshop**, Hyderabad (Feb 2025) — 5-day programme on leadership, communication, and career development
- **Reliance Scholars Meet**, Bengaluru (Aug 2025) — industry sessions and peer mentoring
